

CONSUMERISM PRACTICE GUIDELINE

I. SUMMARY

This guideline sets policy and standards for consumer inclusion in the service delivery design and delivery process for all public mental health services. This guideline ensures the goals of a consumer-driven system which gives consumers choices and decision-making roles. It is based on the active participation by primary consumers, family members and advocates in gathering consumer responses to meet these goals.

This participation by consumers, family members and advocates is the basis of a provider's evaluation. Evaluation also includes how this information guides improvements.

II. APPLICATION

- A. Psychiatric hospitals operated by the Michigan Department of Health and Human Services (MDHHS).
- B. Centers for persons with developmental disabilities and community placement agencies operated by the MDHHS.
- C. Children's psychiatric hospitals operated by the MDHHS.

III. POLICY

This policy supports services that advocate for and promote the needs, interests, and well-being of primary consumers. It is essential that consumers become partners in creating and evaluating these programs and services. Involvement in treatment planning is also essential.

Services need to be consumer-driven and may also be consumer-run. This policy supports the broadest range of options and choices for consumers in services. It also supports consumer-run programs which empower consumers in decision-making of their own services.

All consumers need opportunities and choices to reach their fullest potential and live independently. They also have the rights to be included and involved in all aspects of society.

Accommodations shall be made available and tailored to the needs of consumers as specified by consumers for their full and active participation as required by this guideline.
