

Wednesday, June 12th

Or

Thursday, June 13th

Fetal Alcohol Spectrum Disorder

Being offered on both Wednesday, June 12th and Thursday, June 13th, 2019

9:00 a.m. to 4:00 p.m. both days, 8:30 a.m. Registration

Dan Dubovsky, MSW, FASD Specialist

This training addresses the importance of recognizing an FASD or other neurocognitive issue in those with whom we work or live. Why many who are not correctly recognized often receive misdiagnoses such as Oppositional Defiant Disorder, Attention-Deficit Hyperactivity Disorder, Conduct Disorder, Reactive Attachment Disorder, and Bipolar Disorder and what this means for interventions is examined.

After the presentation attendees will be able to:

- List the 3 best practices for the prevention of alcohol exposed pregnancies;
- Discuss the importance of recognizing an FASD in children, adolescents, and adults;
- Identify brain structures affected by prenatal alcohol exposure;
- Examine strategies to improve outcomes for individuals with an FASD.
